My strong point is striver. If I have an aim, I may manage to achieve it. My weak point is weakness of my mind. I tend to sink deeply if someone angry to me. But I full with challenge. The weak point is no problem. I must get overt it.

Have you had any international experiences (for example: camps and conferences in other countries, contact with people of other cultures, etc.)? If so, please give details.

I often design an international party between foreign students and Japanese students. The party's aim is to exchange of other culture, knowledge, custom and so on. But I think that one of the most important things is making many foreign friends. Next month, there is the party in my university. We are preparing in every week for the party. I hope that it become a successful party.

Have you been involved in any organisations, movements, service programmes and other projects? If so, please give details.

Last year, I worked a kindergarten in Australia. It's volunteer program in "Tikyu no arukikata" company. But only two weeks. Then, I introduced about Japanese culture to children. It's great experience to me. In this spring, I went to Cambodia in order to give picture books for ten days. It is study tour in my club. The name of club is PCC in my university. It mean is picture books for Cambodian children. We make many original picture books for Cambodian children. My Cambodian life is precious experience to me. Children know that learning is very important and pleasure things. We were taught it by them.

What are your main reasons for going abroad?

I'd like to work for children of all over the children in the future. Therefore, I think that I have to work in many countries if possible. This time I choose Moldva. Because, it's unknown country in Japan. I'll talk about many experiences in Moldva to Japanese when I back to my country. ICYE have several volunteer programs. I'm interested in it. Therefore I decided this company.

☆Please indicate at least two choices of Voluntary Work Placement you would you like to work in in the host country and why?
