NEW ZEALAND
~ WORK PROFILE ~
2020

Kia Ora!

Warm greetings from New Zealand, Aotearoa – Land of the Long White Cloud!

This Work Profile offers a general view about the hosting placements available within the ACVE New Zealand program. For further information about ACVE and New Zealand please check out our website www.acve.co.nz.

We ask you to please read the following information clearly about our hosting placements. The more you learn about our program, the easier your integration will be and of course the more rewarding your experience in New Zealand.

The Work Profile contains a description of placements currently available for 2019. Projects are always evolving and changing, so it's important to keep an open mind. It is best to describe the **type** of project you're after, and then we can fit you into the best placement relative to your skills and interests.

The preference list is attached separately, please complete this and send it to your National Committee as soon as you can. **The earlier we can receive your Preference List, the earlier we can confirm placements.**

We ask that you read through the information thoroughly and be completely honest when filling out your application form so that we can endeavor to find you the most suitable placement. You should also ensure you read the **New Zealand National Profile**, as this includes important information you need to know.

Remember that voluntary work can at times be difficult. You should come prepared to work hard and be ready for a mix of emotions. The end result is that you will have a once in a lifetime experience – but don't always expect the journey to be easy! Our volunteers work hard – however the rewards stay with you for a lifetime.

Thank you for your co-operation and we look forward to seeing you in New Zealand very soon!

Best wishes

The ACVE Team!

**Our projects are in beautiful locations in New Zealand
BUT
they are in remote areas that are isolated.**

**GET READY FOR BEING COMFORTABLE WITH YOUR
OWN COMPANY AND WITHOUT A CAFÉ ON YOUR
DOORSTEP 😊**

**Due to the isolation of our projects, and the lack of
public transport in rural New Zealand...**

IT MAY BE WISE TO BUY A CAR IN NZ

VOLUNTEER REQUIREMENTS

The House of Science creates and fulfils orders of educational supplies for primary schools throughout NZ, so the work is mostly at an office and warehouse centre. Volunteers will need to be comfortable with methodical work, and be capable of detailed administration work, office tasks, logistics and be able to help with any other jobs that come up.

The volunteer will be living with a colleague on their small farm, so the working week may also entail outdoor work and help around the farm. Volunteers should be interested in, and prepared for, some farm work.

VOLUNTEER TASKS

Tasks include simple office jobs (printing, laminating, binding), labelling containers, assisting with supplying orders (such as dividing chemical into smaller quantities, packing boxes, etc).

NUMBER OF ACVE VOLUNTEERS IN PROJECT

1 – female.

HOST SITUATION

Accommodation is a home-stay with a work colleague, her husband and pet dog. The home is located rurally, about 20 minutes from the work place. Travel is provided, but volunteers should also have their **drivers license**. Not suitable for vegetarians or vegans, and no smokers please. Volunteers should enjoy farm-life and be prepared to live in a beautiful but rural setting. You will be a member of the family and therefore be expected to help around the house with some cooking and cleaning as any family member would.
