# Introduction

Dear partners and future volunteers,

This work profile is to be used as complementary information alongside the National Profile. We work with many organisations across Costa Rica and find new projects each year. Thus, we encourage you to use the projects in this profile as a tool for reference so that, based on your project of preference, you can suggest what area of work you would most like to work in (children, elderly, ecological etc.). Furthermore, the assignment of the project also depends on other factors such as the availability of a host family in the area and demand to work in a specific area.

Looking forward to host you in our beautiful country!

## **FUNDACIÓN ACCIÓN JÓVEN**

Fundación Acción Joven is a non-profit organization created in 2006 to prevent high school dropouts. They work with public high schools and vulnerable communities. There, they develop empowerment and leadership programmes in order to encourage the students to finish school and to enter the labour market as well as to prevent violence. This project follows a model called “Modelo Integral de Prevención de la Exclusión Estudiantil”. This model enables students and professors to detect the causes that generate high school dropouts. Subsequently, this leads to a construction and consolidation of the cultural, athletic and artistic field. Furthermore, academic performance and group cohesion are built.
