

石壁修復や古道整備でユネスコの世界事業を知る

プロジェクトコード : CAT05

プロジェクト名 : **Reading Life in the Rocks**

期間 (プロジェクト開始日～終了日)

7/17/2022 ~ 7/31/2022

背景

Coordinació Rural de Catalunya is an educative, social action, non-profit organization which works to develop projects and initiatives in the rural areas in Catalonia.

Besides, it works with European and international projects and to achieve its goals, count with agreements from "Generalitat de Catalunya".

It's member of:

- ERCA, European Rural Community Alliance.
- CNJC, National Youth Council of Catalonia.
- COCAT (Coordinadora d'organitzacions de camps de treball internacionals de Catalunya).

活動内容

This project contributes to the dissemination of the natural and cultural heritage of the UNESCO World Geopark Origins, with a community working approach to the territory.

The project proposes different actions, in the technical and work aspect, focused on heritage cultural and in the natural-landscape heritage of the counties of Pallars Jussà and Pallars Sobirà.

The tasks consist into three main actions, which will be carried out in collaboration with three entities:

1. Talarn municipality:

- Recovery of the dry-stone walls of the roads.
- Clearing and cleaning of roads.
- Adaptation of the surroundings of the Calvari hermitage as a recreation area with the installation of benches and shaded areas.

2. Salàs municipality:

Recovery of the old medieval dry-stone road with a double action:

- Shrub all the vegetation that has made the road completely impassable.
- Recovery the dry-stone walls that followed much of the way, redoing them with the traditional methodology.
- Adapt a new path (signage and clearing) to link it and include it in the “hermitage route”.
- Adapt areas close to the Romanesque hermitage to be able to carry out future actions aimed at carrying out archaeological excavations and the restoration of existin architectural elements.

3. Baix Pallars municipality:

- Construction of several dry-stone walls of the salt complexes.
- Cleaning of the drain and around the salt mines.

場所・レジャー

The municipality of Talarn is located on the right bank of the Noguera Pallaresa and surrounds the town of Tremp. Mainly flat around the water of the Sant Antoni reservoir, this is an ideal spot for the practice of water sports.

The village of Talarn was formed on the top of a hill, sheltered by the old castle which occupied the highest position. This village was an old medieval fortress, with walls, towers and gates of the closed village.

The streets keep the appearance of the 17th century, the time of its splendour, with some noble houses such as the Baró d'Eroles property. It is also remarkable the fountain of Caps, located in the outskirts of the village and built at the beginning of the 19th century.

Other places of interest are the abandoned village of Castell d'Encús, where you can see the ruins of the towns as well as the old wine vats dug in the rocks.

This area produces high quality wines named Castell d'Encús, with Costers del Segre DO. Salàs has been historically an important village in the region, in the 14th century it was already authorised to celebrate an annual cattle fair which has been a reference throughout the centuries. Nowadays, this fair has become the Remembrance Day of the Salàs Fair in the beginning of November.

Salàs de Pallars has kept its medieval features and still conserves three gates from this period. Nowadays, thanks to the work carried out to valorise its historical and ethnological heritage, Salàs has a remarkable exhibition of museum-shops, which reproduce the atmosphere in shops as they were in the past.

The volunteers will enjoy some activities during the leisure time as:

- Visit to Epicentre, visitors centre of the Geopark in Tremp.
- Visit to Shop Museum in Salàs de Pallars.
- Visit to the vineyards and wineries of the private houses of Talarn.
- Visit the Salàs, Gerri and Conca Dellà Museums.
- Visit Puigcercós Vell.
- Departure to Montcortés and guided tour of the town of Peramea.
- Visit to Parc Astronòmic del Montsec (PAM).
