

考古学の発掘調査からの古代ローマへのアプローチ

プロジェクトコード : CAT06

プロジェクト名 : Archaeological conditioning and research in the Roman city of Aeso

期間 (プロジェクト開始日～終了日)

7/17/2022 ~ 7/31/2022

背景

The Centre d'Estudis d'Isona i Conca Dellà was founded in 1988 with the aim of preserving, studying and making visible the cultural heritage of the municipality of Isona and Conca Dellà. It is endorsed by the promotion of several studies, researches, exhibitions and the publication of few works on a local theme.

活動内容

The purpose of the work camp is to bring young people an approach to different tasks of archaeology, such as digging and the study of archaeological remains.

Scientifically, it aims to enhance the knowledge of the Roman city of Aeso.

There are three actions planned:

- a) Surface cleaning of the land plot known as Hort del Cavaller
- b) Archaeological excavation on the same plot
- c) Treatment and study of archaeological items from the site preserved in the Museu de la Conca Dellà, both from the current excavation and from the precedent ones.

参加条件

29歳まで

宿泊・食事

ホステルでの宿泊 寝袋持参

The accommodation is in the Municipal hostel. Its capacity is for 15 people. The rooms are conditioned to be accessed in its entirety.

最寄空港・駅・バス停

バルセロナ (BCN) 空港

場所・レジャー

The town of Isona is located in the south of the Pallars Jussà region of Lleida, included in one of the UNESCO Geoparks. The town, of 600 inhabitants, was occupied by the Iberian and Roman culture, and long before, inhabited by some of the last dinosaurs that inhabited the earth.
