プロジェクトコード : CONCF-156

プロジェクト名 : FRENCH RURAL HERITAGE

期間 (プロジェクト開始日～終了日)

### 背景

The municipality is committed to restoring its local heritage through international workcamps. You will also work together with a local heritage NGO: Longages Heritage.

### 活動内容

Welcome to the « Douce France » in the sunny Southwest! You will participate in an international volunteer project organized by Concordia in Longages village, a rural location half an hour away from Toulouse. The project aims to create links between locals, visitors and volunteers.

You will participate in promoting historical heritage by working on an old market building. This kiosk was used to weigh fruits and vegetables at the town market, and is nowadays in poor condition. As part of the project, you will intervene on the facade of the kiosk, by responsibly using natural materials. You will picket the facade to strip the masonry and leave the traditional red bricks visible.
