### 背景

Concrete work in a garden to reinforce the paths of social inclusion of fragile people in friendship! #community #solidarity #inclusion #lunarcamp

The aim of the project is to reinforce the paths of social inclusion of fragile people with concrete activities. The idea to host a workcamp where international volunteers work with the people with mental disabilities is for the VER.BENE association an opportunity to get out of the routine of an often repetitive everyday life . The opportunity to work in a group in the garden and in the grove of Scifelli meeting people from different parts of the world could be a very nice experience for the hosts of the association. By joining this workcamp you will contribute to the Sustainable Development Goals: Reduce inequality -SDG10.

The project is organized by Lunaria in collaboration with the association VER.BENE that works with the inclusion and care of people with mental disability.
