

貴重な動植物が生息する北ドイツの自然を守る

プロジェクトコード : NIG15

プロジェクト名 : Wueste & Glase

期間 (プロジェクト開始日～終了日)

8/22/2022 ~ 9/3/2022

背景

This project is organized by NiG e.V., a German non-profit and non-government organization. In this project we work together with the local agency of the nature park " Mecklenburgische Schweiz".

活動内容

The volunteers will have to work in the forests and hills. A pond needs to be fenced to protect the rare fire bellied toad. There are other old fences that need to be removed. In the field of stones the volunteers will have to move heaps of hay to clear up the area, walking in the paths of the old Germanic people. The volunteers will go by bike from the accommodation to the working place. The work takes place in cooperation with the "Manfred Hermsen Stiftung", the national office for Agriculture and Environment and the nature park "Mecklenburg Switzerland".
