

カンボジアの豊かな海とマングローブ林を守ろう Ⅲ

プロジェクトコード : CYA2280

プロジェクト名 : Trapaing Sangke Fishing Community (TFC)

期間 (プロジェクト開始日～終了日) : 2/20/2023 ~ 3/4/2023

追加費用 (現地払い) : 220US ドル

背景 : Trapaing Sangke Fishing Community (TFC) is a community based organization aims at preserve and protect mangrove forest to maintain ecology system and increase lives in the sea such as crab, fish, shrimp, etc. so that fishermen can stay and earn income in their community without migrate to other countries. CYA have been working with TFC since 2012 to support their initiative and through our cooperation in 2014, TFC became a popular eco - tourism site receiving hundreds of tourists every weeks. TFC is a successful project because of the strong support of our volunteers and as usual volunteers are still in needs to work hand in hand with local people in supporting its growth and to make sure local people will keep TFC cleans and more mangroves are plants and nursing.

活動内容: Organize workshops with local people to promote the understanding of mangroves forest to people lives and collect mangrove seeds, seedling, and planting mangroves in TFC protected area while maintaining the planted mangroves.

宿泊・食事 : Volunteer will stay together in share bungalows at community center that CYA rents. The basic meals in Cambodian dishes will be cooked by volunteers in daily shift.

最寄空港：プノンペン国際空港(PNH)

場所・レジャー： There are plenty of tourist attraction sites such as Teuk Chhou, Bokor national park, Rabbit island, and more.. that you can explore during your free day. TFC is on open space in the remote area so beside your free day touring you can also have fun by interacting with local people, teenagers and children during your free time by organizing different activities so bring your flexibility and creativity.

参加条件： What we expect from you?

- Volunteers are read and understood this information. Be in time and stay the entire length of work camp.
- Volunteers are aware about the concept of international voluntary service, especially International - - Work Camp which is not a cheap way of spending your holiday but a voluntary activity that need your high motivation and willing to achieve a certain goal together with your team.
- Realize that living condition in Cambodia is much difference from your home country (no warm water, no air conditioning, not easy to access to international phone and internet, no soft beds, and the food is also differences etc).
- Volunteers should understand about the aims of the work camp and realize that learning about Cambodian way and social contact is more important than manual work.
- Volunteers are open minded, leave prejudice behind and show initiative. Volunteers should understand the situation of spending time with local people who do not speak English very well.
- Volunteers should try the effort in trying to communicate in basic Khmer language or other way of communicating (work, pictures, gestures, etc). If you will try, you will be amazed how quick you will learn basic Khmer language.
- Do not complain because the changing schedule during the camp, it's depending on condition and situation. So bring some flexibilities and you will stay relax and avoid a lot of stress and frustration for yourself.

備考： What to bring?

- Positive energy to work and live the local lifestyle
- Idea for energizing game and activities during you free time
- Knowledge, education, and information about your country so that you can share with other participants

- More clothes or you will need to wash it every day as you are going to work a lot in the water.
 - Shoes that can walk in the mud and water will be good to bring with you.
 - Some personal medicine such as allergy, mosquito repellent, and other emergencies medicine though we will provide first aids for basic condition.
 - Traditional cloth that you might want to wear in the international night
- Food and ingredients for international dinner and snack so that you can share with local people.
